What is TRAVELOGUE?

A Travelogue is an Initiative of KAN-B to Glorify the Victory of Indian History. We have replaced the word Catalogue with "Travelogue" to create a revolution by glorifying the Victories of Indian Histories by naming our Products based on our Indian Historical achievements.

India is a Land of vast culture and Heritage and one of the oldest civilizations of the world.

India is the country of various religion, cultures and different atmosphere. India is the cultural hub of the world. Because of its ancient religious history, size, diversity and population, India really is an amazing country. It is also known as the center of Hindu civilization and also the center of origin of world's greatest epics the Ramayan and the Mahabharat.

"Let's Trade with the History Made", is our primary motto to work with travelogue. We are sure that KAN-B's Travelogue is first of its kind in Door Industry to Promote Business with such unique concept and creating a revolution in naming a product in the best possible way. We believe every name has its own energy and vibes. We welcome your feedbacks and suggestions to improve further.
